Dear Sir or Madam,

thank you for giving us the opportunity to provide information about our technologies in the field of in vitro inhalation.

We offer a large range of solutions for in vitro testing of gases, complex mixtures and nano particles on biological systems of the respiratory tract.

As these technologies can be applied also for skin testing we provide this information as well.

As the files are fairly large we send them via wetransfer to [niceatm@niehs.nih.gov](mailto:niceatm@niehs.nih.gov).

If you require more or other information, please let us know.

Our contact details are below.

With kind regards,
