

Peer Review Charge

Peer Review of the Draft NTP DART Reports on 2-Hydroxy-4-Methoxybenzophenone and 2-Ethylhexyl p-Methoxycinnamate

Webcast
October 14, 2021

The DART Reports Peer-Review Panel is charged to:

- Review and evaluate the scientific and technical elements of each study and its presentation.
- Determine whether each study's experimental design, conduct, and findings support NTP's conclusions under the conditions of each study.
