Table 1: 2011 Summary of Groundwater Sample Results for the Monitoring Well Project

| Compound             | Number of Detects | Detect Range (parts per billion) | Groundwater Enforcement Standard (parts per billion) |
|----------------------|-------------------|----------------------------------|--|
| Acetochlor           | 0                 | not detected                     | 7  |
| Acetochlor ESA       | 17                | 0.102 to 3.05                    | 230 *  |
| Acetochlor OA        | 3                 | 0.141 to 0.808                   | 230 *  |
| Alachlor             | 0                 | not detected                     | 2  |
| Alachlor ESA         | 45                | 0.108 to 17.65                   | 20   |
| Alachlor OA          | 13                | 0.124 to 1.48                    |  |
| Atrazine             | 3                 | 0.15 to 0.417                    |  |
| Deethyl Atrazine     | 1                 | 1.03                             |  |
| Deisopropyl Atrazine | 4                 | 0.313 to 0.908                   |  |
| Diamino Atrazine     | 4                 | 0.545 to 0.701                   |  |
| Total Atrazine (TCR) | 9                 | 0.15 to 1.45                     | 3  |
| Clothianidin         | 8                 | 0.304 to 1.13                    |  |
| Imidacloprid         | 8                 | 0.255 to 2.5                     |  |
| Metolachlor          | 5                 | 0.552 to 3.49                    | 100  |
| Metolachlor ESA      | 62                | 0.117 to 82.7                    | 1,300 *  |
| Metolachlor OA       | 48                | 0.105 to 44.1                    | 1,300 *  |
| Metribuzin           | 8                 | 0.098 to 7.61                    | 70   |
| Simazine             | 0                 | not detected                     | 4  |
| Thiamethoxam         | 10                | 0.213 to 2.18                    |  |
| Nitrate-N            | 74                | 0.74 to 76.1 mg/l                | 10 mg/l  |

<sup>\*</sup> Standard is based on the sum of ESA and OA metabolites
